

ALEX RODRIGUEZ

Machine Learning Engineer

alex.rodriguez@email.com | linkedin.com/in/alexrodriguez | github.com/alexrodriguez

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3 years of experience developing and deploying ML models in production environments. Specialized in deep learning and scalable ML systems.

TECHNICAL SKILLS

ML Frameworks: TensorFlow, PyTorch, Scikit-learn, Keras, XGBoost

Programming: Python, SQL, R, Java, C++

MLOps: Docker, Kubernetes, AWS SageMaker, MLflow, Airflow

Data: Pandas, NumPy, SQL, PostgreSQL, BigQuery

Specialties: Deep Learning, Computer Vision, NLP, Recommendation Systems

EXPERIENCE

- Machine Learning Engineer** 2021 – Present
AI Innovations Inc.
 - Developed computer vision models achieving 95% accuracy
 - Built a recommendation system for over 1M users
 - Implemented scalable MLOps pipelines using Docker and MLflow
 - Optimized neural networks for faster inference in production
- Data Scientist** 2019 – 2021
DataTech Solutions
 - Created predictive models for customer churn analysis
 - Developed NLP pipelines for text classification tasks
 - Built real-time data processing workflows using Python and SQL

EDUCATION

- University of Washington**
Master of Science in Artificial Intelligence
- University of California, Berkeley**
Bachelor of Science in Computer Science

SKILLS

Python, TensorFlow, PyTorch, Machine Learning, Deep Learning, Docker, Kubernetes, AWS, SQL, Data Science, Computer Vision, NLP
